Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1 and 33-34 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Vigh et al. (USP 6,511,850) or Weigl et al. (USP 6,454,945).

Vigh et al. teach a method and apparatus for supplying a sample. Exemplary are claims 22+ which teach a method of supplying a first fluid containing an analyte and a second fluid that sheaths the first fluid. The resistance between the two fluids is taught as substantially negligible. If there is minimal resistance between the sheathed fluids, the two fluids would flow at the same rate that has been read on the claimed two fluids flowing at the same rate. Claim 33 requires the sample fluid to have a variable viscosity. The Office maintains all fluids have different viscosities at different temperature. The sample taught by Vigh et al. would have different viscosities at different temperatures and which has been on the claimed fluid sample having variable viscosities. Finally, claim 34 requires the fluid sample to contain non-dissolved particles. The taught sample includes biological samples that would contain non-dissolved particles.

See the appropriate paragraph of paper 4 for the teachings of Weigl et al. ('945) et al. Additionally, in light of the 4/28/04 amendments, Weigl et al. teach in column 7 lines 38+ teach the two fluids can be at equal flow rates.

Response to Arguments

Applicant's arguments with respect to claims 1 and 33-34 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
